PATCH**

Vala LEAK SEALING PATCH

Vala Leak Sealing Patches are high-performance, butyl-based instant repair patches designed to stop leaks quickly and permanently. Unlike bitumen products, they are bitumen-free, meaning they won't dry out, crack or become brittle over time.

With a strong, reflective aluminum backing, Vala patches offer superior UV and weather resistance, making them ideal for long-term exterior use. No heat gun, primer or brushes are required — simply Peel, Press, Seal for an instant waterproof repair.

Perfect for covering roof screws and nails, repairing leaking roofs and sealing gutters. The flexible butyl adhesive bonds firmly to most surfaces and can be easily cut to size for a precise fit.
